ANDREE HULTGREN

Electrical Engineer with masters in Machine Learning

@ andree_hultgren@hotmail.com   📞 +46(0)73 654 44 91   📍 Stockholm, Sweden

EXPERIENCE

AI Trainer
Front AI

📅 Aug 2019 – Today   📍 Off-site

- Training a conversational AI for clients in Sweden. Including providing structured data and analysing performance of the current model.
- Project management and how larger projects are structured in order to remain effective.
- I am learning the importance and impact of networking and maintaining relations with previous project co-workers.

Entrepreneur
Hultan IT

📅 Oct 2018 – Today   📍 Stockholm, Sweden

- Web development and technical solutions including but not limited to: Websites, web servers, software development and general technical support.
- Great success, converted to AB August 2019.
- I have learned how the business world works and many things pertaining to the corporate world.

Connection administrator
Ellevio

📅 June 2019 – August 2019   📍 Stockholm, Sweden

- Customer support and technical administration.
- It was very important to work in symbiosis with co-workers, following instructions with precision and documenting everything in an organised manner.
- I grew in my ability to work in groups and supporting each other to reach a common goal.

Team leader
Haninge municipality

📅 June 2018 – August 2018   📍 Haninge, Sweden

- Managing group dynamics with a wide variety of co-workers.
- Planning and organising the work for a small team in a long-term time horizon.
- Cooperating efforts with other teams in order to keep the workload even, and to keep the sucess balanced.

A DAY OF MY LIFE
